

Falling in Dream

When I thought about vacation, rather than fancier places, I thought about my nice bed . When I moved into new place, it was the most important part that I focused on. As I have many thoughts and light sleeping, it was always hard to fall in sleep. Therefore I'm thinking about the stages that I fall into sleep. It felt like I am soak into deeper ocean and slowly getting darker and darker.

Subtle transition is also my inspiration.

Vacation to past

When I think of the dream vacation, so many places popped into my head. I love to travel and there were a lot of good memories with it. Also during my vacation, I usually go back to my home in Korea and it may be the last time that I would go back for vacation. So I want to make adventure game type of webpages so that I can go back into my past happy memories.

Relationship Milestone

There were several words that popped up to my mind when I thought about vacation. For me vacation is journey where I discover something new and reaching new level. I tried to think of what kind of abstract journey and what will be the final destination. And I saw this short video about Relationship milestone. I thought it can be the time when you go inside deeper to one person and it can be new journey.
