3D butterfly

Inspiration

Idea

You give me so many butterflies

Print

I am going to make card with image and text and put 3D paper butterfly on the card for hidden messages.

Web

I am going to combine the animation and hovering effect on css so that when the pointer of the mouse hovers the heart, butterflies fly away and the word shows behind.

You are my TYPE

Type: the sort of person one likes or finds attractive.
printed characters or letters.

Inspiration

Idea

My Type is

YOU YOU YOU YOU
YOU YOU YOU YOU
YOU YOU YOU **YOU**

Print

As I was inspired by the simple cards with only typography, I want to make a card with bunch of "YOU" with different type face. It means like even type face changes, my type is "You". Really cheesy.
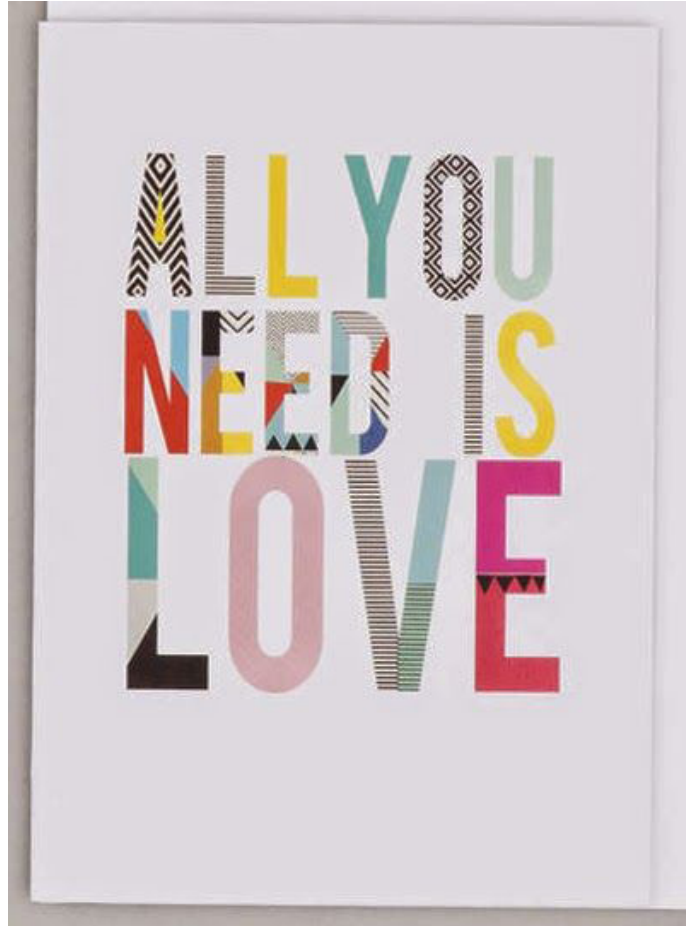

My Type is

YOU
Helvetica

Web

I want to make gif file that in the middle of the image word "You" is keep changing in fast speed in different type face to show the same.

Double layer

Inspiration

Idea

Print

I am going to make two layer card that has the hole in front of the front page so that the card will look like as it is clipping masked.

Web

In the web, I will make it as a form of website so that as the curser moves the word follows, so that the image at the back will show as user moves the pointer.
